### **WORLD LAUNCH OF AIRLINE CABIN HUMIDIFICATION AIR MAURITIUS will enhance cabin comfort on long haul flights with CTT's humidification technology; the CAIR™ System**

*April 29, 2005*

“Our “L’Esprit de Maurice” in-flight service brand is an expression of the unique sense of the Mauritian hospitality; we want our passengers to start enjoying the Mauritian atmosphere the moment they step on board. Along with signature dishes and select wines picked by the best sommelier of France, humidified fresh air in the First class and Business cabins brings the concept of ‘wellness in the air’ to yet new heights. Our initiative with CTT Cair Systems turns Air Mauritius into a trend- setter among long-haul carriers and our passengers will have one more reason to justify their choice of flying with us to Mauritius,” says Megh Pillay, CEO of Air Mauritius.
