

## Press Release

### **CTT Systems AB receives orders from Associated Air Center on the Cair™ system for one VIP A319 and one Boeing BBJ aircraft**

**Nyköping, Sweden, March 07, 2008**, – Associated Air Center (AAC) in Dallas, USA has ordered the CTT Cair™ System to be installed in one VIP A319 and one Boeing BBJ1 aircraft. The installations will be performed during summer/fall 2008.

Cair™ is focused on the passengers' health and comfort by providing humidification of the extremely dry aircraft cabins without condensation. Cair™ gives a pleasant relative humidity of 25%, compared to 3-5% without, for the passengers, thereby reducing dry air related problems (e.g. fatigue, jet-lag, red eyes, dry skin, spread of virus diseases).

“The VIP aircraft market is really booming right now and the requests for our cabin humidification system; Cair™ as well” says Ulf Liljenberg, Vice President Sales & Marketing of CTT Systems.” We have been working with AAC before and are much excited to continue our relationship with these orders” continues Ulf Liljenberg.

The Cair™ system is based on evaporative cooling technology. Besides being extremely energy efficient, Cair™ uses a method that effectively precludes the transfer of bacteria within the aircraft. The dual-purpose system increases humidity for greater comfort and incorporates the Zonal Drying™ System to counter condensation problems.

CTT's Zonal Drying™ System has been selected as basic equipment for the new B787 “Dreamliner” and CTT's humidifiers are options in crew rest compartments and on flight deck. The A380 offers CTT's humidifiers as option in crew rest compartments.

---

CTT provides systems for humidity control in aircraft. CTT Systems' offers the Zonal Drying™ System, and the Cair™ System. The Zonal Drying™ System eliminates condensation on the aircraft structure and is installed in many aircraft in use today. The Cair™ System provides humidification of the extremely dry first and business class cabins without condensation in long haul aircraft. CTT's Customers include Boeing, Airbus and many airlines, along with partnerships with Lufthansa Technik. CTT Systems AB is located in Nyköping, Sweden and listed on the Stockholm stock exchange.
