

## Press Release

### **CTT Systems AB receives an order, during the Hamburg Aircraft Interiors Expo, from Comlux America on the Cair™ system for one VIP A319 aircraft**

**Hamburg, April 4, 2011**, – Comlux America based in Indianapolis USA, has ordered a CTT Cair™ System to be installed, during summer/fall 2011, in one Airbus VIP A319 aircraft. Comlux America is a major completion center offering top quality cabin outfitting and associated services.

Cair™ is focused on the passengers' health and comfort by providing humidification of the extremely dry aircraft cabins without causing condensation. Cair™ gives a pleasant relative humidity of around 20%, compared to 3-5% without, for the passengers, thereby reducing dry air related problems (e.g. fatigue, jet-lag, red eyes, dry skin, spread of virus diseases).

"We are very pleased to once again work with CTT for our new outfitting project on an A319 ACJ. We have already installed the Cair™ system in a recently completed A320 VIP Cabin and we are thoroughly convinced of the added value of the Cair™ system for Comlux VIP clientele" says David Edinger, CEO of Comlux America."

"This is the second order we get from Comlux and we are delighted to be able to continue working with Comlux on this new aircraft" says Ulf Liljenberg, Vice President Sales & Marketing of CTT Systems" Our Cair™ system is doing very well in this segment and the VIP market continues to be very strong" continues Ulf Liljenberg.

The Cair™ system is based on evaporative cooling technology and uses a method that The Cair™ system is based on evaporative cooling technology and uses a method that effectively precludes the transfer of bacteria within the aircraft. The dual-purpose system increases humidity for greater comfort and incorporates the Zonal Drying™ System to counter condensation problems.

CTT's Zonal Drying™ System has been selected as basic equipment for the new B787 "Dreamliner" and CTT's humidifiers are options in crew rest compartments and on flight deck. The A380 offers CTT's humidifiers as option in crew rest compartments. CTT will also supply the Zonal Drying™ system and the Cair™ system for the A350 aircraft, as options.

During April 5- April 7 CTT is displaying its products at the Hamburg Aircraft Interiors Expo. Please visit CTT in booth 4D50.

CTTs products Zonal Drying™, Cair™, Flight Deck and Crew Humidifier are standard or optional equipment on Boeing B787, Airbus A350 and A380. CTT has today more than 400 systems installed in more than 30 airlines worldwide. CTT has now 16 years of operating experience on the Zonal Drying™ system plus 10 years on Cair™ and Crew Humidifier systems. IATAs report on fuel-saving measures is now including Zonal Drying™ as one of the few available fuel-saving systems for retrofitting.
