

## Press Release

### **MARTINAIR orders Zonal Drying™ System for three Airbus A320 Aircraft**

**Nyköping, Sweden, November 15, 2005**, – MARTINAIR, the Netherlands has placed an order with CTT Systems for the Zonal Drying™ System to be installed in three Airbus A320 aircraft. The systems will be installed during spring 2006.

Martinair is one of CTT's first customers and have previously ordered the Zonal Drying™ System for its B767 and MD-11 aircraft. – “Again Martinair selects our Zonal Drying™ System and this time for their new Airbus A320 aircraft” comments CTT's President Torbjörn Johansson today's order. – “Martinair was an early customer for CTT with the B767s and MD-11s and again they are among the first ones in ordering the system for Airbus A320 aircraft and we have high expectations on the future sales of the Zonal Drying™ System for Airbus A320 series aircraft” continues Torbjörn Johansson.

By eliminating condensation in the aircraft both operational and maintenance costs will be lowered through:

- lowered fuel consumption (i.e. lower aircraft weight due to elimination of accumulated water),
- improved operational reliability (i.e. less corrective maintenance)
- consistent insulation performance (i.e. water reduces insulation performance),

Further, the aircraft residual value will be protected or even improved due to reduced corrosive impact over the years. Reduced fuel burn (due to lowered aircraft weight) also has a positive impact on the environment.

CTT's Zonal Drying™ System has been selected as standard for the new B787 “Dreamliner” and CTT's humidifiers are options in crew rest compartments and on flight deck. The A380 offers CTT's humidifiers as option in crew rest compartments.

CTT provides systems for humidity control in aircraft. CTT Systems' offers the Zonal Drying™ System, and the Cair™ System. The Zonal Drying™ System eliminates condensation on the aircraft structure and is installed in many aircraft in use today. The Cair™ System provides humidification of the extremely dry first and business class cabins without condensation in long haul aircraft. CTT's Customers include Boeing, Airbus, Bombardier and many airlines, along with partnerships with Lufthansa Technik. CTT Systems AB is located in Nyköping, Sweden and listed on the O-list of Stockholm stock exchange.
