CTT Systems Announces Cair™ VIP Inflight Humidification Order to be fitted in one Airbus ACJ320neo completion by Comlux

CTT SYSTEMS AB (“CTT”), the market leader of aircraft humidity control systems, announces a Cair™ VIP Inflight Humidification (IFH) order from Comlux Completion to be fitted one Airbus ACJ320neo. This award is CTT Systems’ 92nd IFH order for Airbus ACJ and Boeing BBJ VIP aircraft.

“Delighted to cooperate with Comlux again in another prestigious completion,” says Peter Landquist, Vice President Sales & Marketing of CTT Systems.

“Humidification is one of the most important features in engineering luxury and comfort for our most prestigious completion clients,” stated Scott Meyer, CEO Comlux Completion. Meyer continued, “CTT Systems is a trusted supplier and its Cair™ VIP Inflight Humidification has proven to be a very reliable and efficient system”.

The CTT VIP Inflight Humidification (IFH) system achieves a comfortable level of 22 % relative humidity throughout the entire aircraft cabin. Without such system the relative humidity is only 3-5 %, far below the recommended level for human comfort, health and well-being. VIP passengers will, on long-haul flights, benefit from the increase in humidity with reduction of dry air related problems (e.g. fatigue, jet-lag, red eyes, dry skin, spread of virus diseases), but also from improved well-being and sleep. The CTT IFH system utilizes evaporative cooling technology that effectively precludes the transfer of bacteria and improves air quality by reducing particles in the cabin air. The system also offers total anti-condensation protection.

About Comlux

Comlux is one of the leaders in Business Aviation, Transaction and Completion services. For over 15 years, we have been Engineering Luxury for VIP customers looking for personal and professional management of their private aviation needs: aircraft sales and acquisitions, aircraft operations and charter management, cabin interiors, maintenance and upgrades. Headquartered in Switzerland with a global presence around the world, Comlux delivers World-class Swiss-made business aviation services at the highest standards of the industry.

About CTT SYSTEMS

CTT Systems is the market leading provider of humidity control systems in aircraft, including moisture control systems to prevent fuselage condensation, and humidifiers to improve climate for crew and passengers. CTT Systems’ products are offered for retrofit installations and line-fit on Airbus A380, A350, Boeing 787 and Boeing 777X. The crew humidifier is standard in all crew rest compartment fitted Boeing 787 aircraft and optional in the crew rest compartment on Boeing 777X, A380 and A350. The flight deck humidifier is SFE listed on A350, Boeing 787 and Boeing 777X. Inflight humidification is SFE listed for First/Business Class on Airbus A350 (Zone 1-3) and Boeing 777X (Zone 1 and 2). The Zonal Drying™ anti-condensation system is optional A350XWB and available for BFE line-fit on Boeing Next-Generation 737-800. CTT products are also available for retrofit installations on all Airbus and Boeing aircraft.
