CTT Systems Announces Airbus ACJ320neo VIP Inflight Humidification Order from Comlux

CTT SYSTEMS AB (“CTT”), the market leader of aircraft humidity control system, announces Inflight Humidification VIP system order from Comlux Completion for an Airbus ACJ320neo aircraft. This completion will feature increased humidity in the entire aircraft cabin, which requires support from two humidifiers, with Anti-Fuselage-Condensation protection. This award is CTT Systems’ 96th Inflight Humidification VIP order for Airbus ACJ and Boeing BBJ aircraft.

“We are delighted to cooperate with Comlux again in the completion of the second ACJ320neo that Comlux equip with our IFH system,” says Peter Landquist, Vice President Sales & Marketing of CTT Systems.

“Humidification is one of the most important features in engineering luxury and comfort for our most prestigious completion clients,” stated Daron Dryer CEO Comlux Completion. Dryer continued, “CTT Systems is a trusted supplier and its VIP Inflight Humidification has proven to be a very reliable and efficient system”.

Without an efficient humidification system, the VIP cabin air is far more dehydrating than any place on Earth - below 5 % RH. This ACJ320neo will have a striking humidity increase, restored to comfort and wellbeing level, to approx. 20 percent Relative Humidity (RH). VIP passengers on this ACJ320neo will on long-haul flights benefit from reduced dry air related problems (e.g. fatigue, jet-lag, red eyes, dry skin, spread of virus diseases) and improved wellbeing and sleep. The CTT humidifier is based on evaporative cooling technology and uses a method that effectively precludes the transfer of bacteria. The CTT IFH VIP system offers total anti-condensation protection.

About Comlux

Comlux is one of the leaders in Business Aviation, Transaction and Completion services. For over 15 years, we have been Engineering luxury for VIP customers looking for personal and professional management of their private aviation needs: aircraft sales and acquisitions, aircraft operations and charter management, cabin interiors, maintenance and upgrades. Headquartered in Switzerland with a global presence around the world, Comlux delivers World-class Swiss-made business aviation services at the highest standards of the industry.

About CTT SYSTEMS

CTT Systems is the market leading provider of humidity control products in aircraft, including Moisture Control Systems to prevent fuselage condensation, and inflight humidifiers – Humidifier On-board - for crew and passenger well-being. All products are available for retrofit installations and line-fit on Airbus A380, A350, Boeing 787 and 777X. The crew humidifier is standard equipment in a crew rest compartment on Boeing 787 and standalone option in the crew rest compartment on A380, A350XWB and B777X. The flight deck humidifier is SFE listed on Airbus A350XWB, Boeing 787 and Boeing 777X. Inflight Humidification (IFH) – Humidifier On-board - is SFE listed for First/Business Class on A350XWB (Zone 1-3) and Boeing 777X (Zone 1 and 2). The Anti-Fuselage-Condensation system is SFE listed on A350 and is SFE-selected for the A320 Family. Also visit: www.ctt.se
