TRUE WELLBEING WITH
HUMIDIFIER ONBOARD
WHY?

THE AIR WE BREATHE

How much does a Human eat and drink per day?

THE AIR WE BREATHE

Everyday a human person

- eat ~1,5 kgs food (3,3 lb)
- drink ~2 kgs fluid (4,4lb)

THE AIR WE BREATHE

Everyday a human person

- eat ~1,5 kgs food (3,3 lb)
- drink ~2 kgs fluid (4,4lb)

How much Air do a Human Breathe per day?

THE AIR WE BREATHE

Everyday a human person

- eat ~1,5 kgs food (3,3 lb)
- drink ~2 kgs fluid (4,4lb)

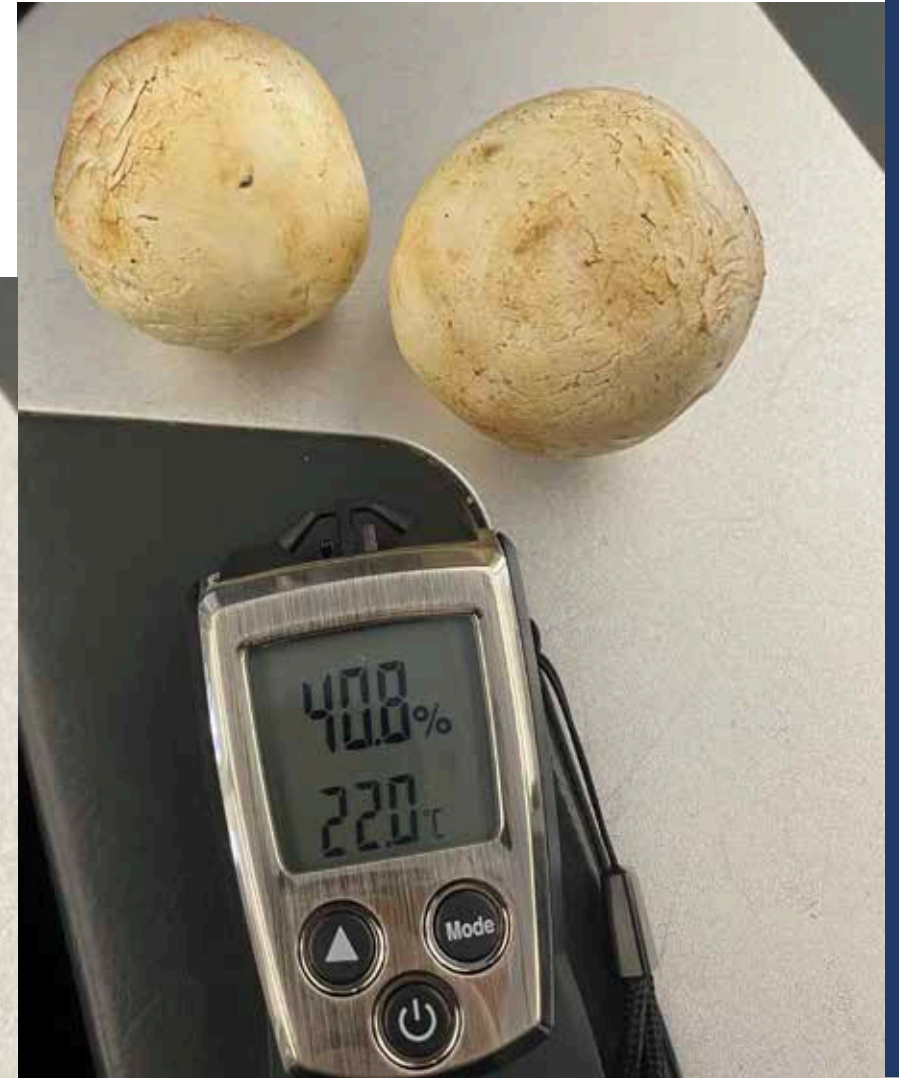

We breathe **25kgs** (55 lb) of Air per day!

....or 20 000 liters in 20 000 breathes per day

THE FLYING MUSHROOM

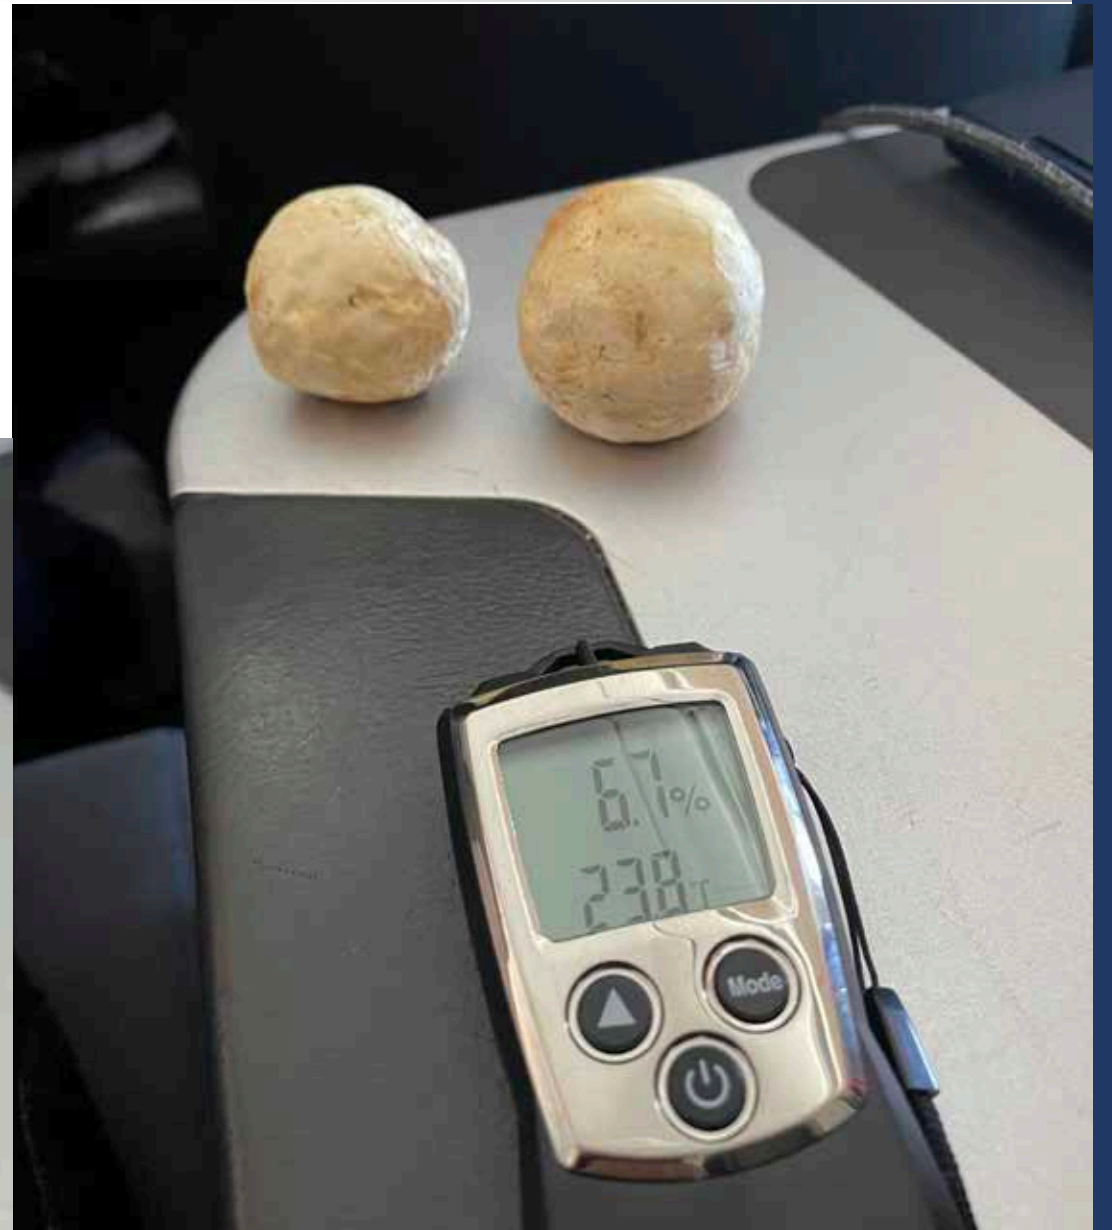

MUSHROOM - AT TAKE OFF STOCKHOLM (ON THE WAY TO CHICAGO)

- This is two fresh mushrooms flying Business Class
- Picture taken just after take off on a flight between Stockholm and Chicago

MUSHROOM - AFTER 3 HOURS FLIGHT

- Humidity is dropping to around 6,7% (RH%), on a 100% full Cabin
- Mushrooms start to de-hydrate and shrink

MUSHROOM – ARRIVING AT CHICAGO O’HARE

At arrival after 8 hrs the flying mushrooms

- has deep wrinkles
- shrunk in size
- has a hard shell

DON'T BE A MUSHROOM!
